THE BOTTOM OUT OF DANGER

The downpour began between 4 and 5:30, and continued to rain steadily until about 10 o'clock. The city received one of its heaviest and most destructive rainfalls in its history. It poured so much in about an hour and a half that the streets were turned into streams and every street was surrounded by water. The streets near the town were flooded with water several feet deep. The city was completely submerged.

The flood of water poured into it, until the big tank until the advance of the storm.

Small streams were swollen to over

The property damage will be enormous.

The main story of the storm, as given in the last line of the article, is that the city was completely submerged. It is only a matter of time before the people will have to leave their homes and seek shelter in the city.

The property loss will be enormous.
